

TOWNSHIP OF CHINGUACOUSY VICTORIA PARK ARENA

**OFFICIAL OPENING
NOVEMBER 18, 1966**

“A Salute to the New Arena”

CHINGUACOUSY RESIDENTS

Meet Your New Arena

BRAMALEA — The Township of Chinguacousy Victoria Park arena gets its official blessing Friday night.

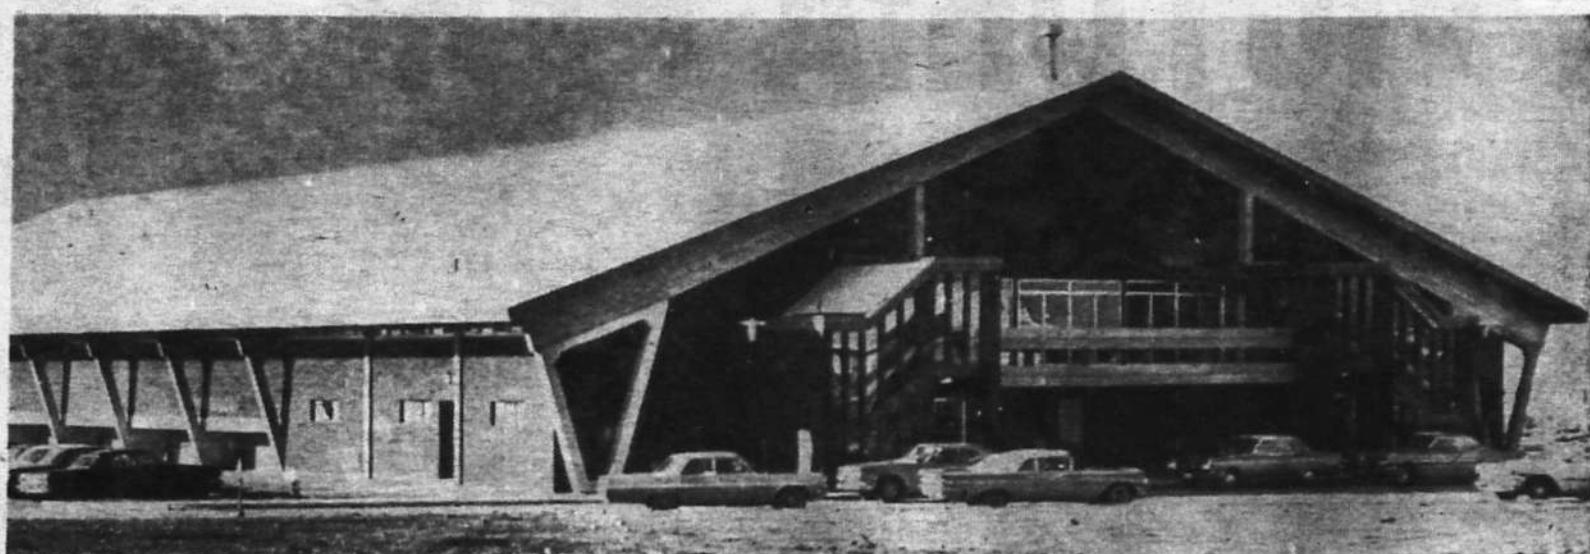

Located in the centre of the township's centennial project Victoria Park, the arena, designed by Canadian Mitchell Associates of Bramalea, is rapidly becoming the centre of activity in this bustling community, 25 miles northwest of Toronto, and four miles east of Brampton.

Friday night, the community will fill the arena to watch a special program honoring the occasion after the building is officially opened.

The site is situated in Victoria Park close to the Bramalea Shopping Centre and nearby residential development which forms a buffer between the residential and selected industrial lands.

The criteria for design aimed to provide an efficient multi-purpose building with full arena facilities and also a community hall for the many and varied activities of this young and virile community.

The building was required to be attractive but not elaborate and properly carry the identity of the town-

The new Township of Chinguacousy Victoria Park Arena. It's busy on any day in the week.

ship. The location places the arena in the transition zone from the residential houses to the smaller industrial buildings and thus the dimensions of the arena is in keeping with its site.

The overall size of the building is 116' x 234' of which the hall and change-room section occupies the front 36'. The service section comprising the refrigeration equipment and mechanical room and garage for the ice-cleaning ma-

chine extends 16' from the rear of the building for a width of 50' and is of con-

crete block construction with a timber roof.

The arena encloses an 85'

THE COVER

"Charging down the ice on our cover are, from left, Billy Graham, aged six, Tim Calister, 8, and Billy's brother Arthur, age 7. Billy and Arthur, who live at 2 Aloma cres. in Bramalea both play for the Biffburger team in the paperweight division. Tim plays for Bramalea IGA in the same league. He lives at 9 Bramberry ct., Bramalea.

x 190' ice-surface with present-cast concrete

bleachers on both sides of

the rink providing seating

capacity in excess of 600

persons and with an opportunity

for a substantial additional

standing audience.

The first row of bleachers is raised above the level of the ice-surface so that all spectators will have a particularly good view of the hockey or other activities underway on the arena floor.

The facilities section on

the main floor provides four change rooms, a first aid room, referees' room, ticket office, manager's office, skate sharpening and equipment kiosk, snack bar and two public washrooms.

The snack bar is provided with a 26' long serving counter after careful review and consideration of the stated objectives of concessionaires in numerous other arenas, and the waiting space in front of the snack

a message from
REEVE
CYRIL CLARK

It is with great pleasure that I commend to the attention of the citizens of Chinguacousy Township, in fact to all the citizens of adjacent municipalities, the official opening of what has been referred to as a most modern arena, wherein all members of the community may find recreation of their choice.

This building is tangible evidence of meeting the needs of modern citizens in a progressive municipality. It is only one example of the many things that have already been accomplished, and certainly positive proof of what will be done, not only in the near future but in the years ahead, as Canada's first Satelite City continues to develop harmoniously with the rural area.

IN THE INTEREST OF THE PEOPLE OF CHINGUACOUSY
THIS MESSAGE IS CONTRIBUTED BY

TOWNSHIP OF CHINGUACOUSY

Arena Manager Is Very Busy Man

BRAMALEA — If you see a blur at the new Victoria Park arena on opening night, it will probably be Don Pecore.

Don is the manager of the

new building and as such is responsible for the operations of the arena. He is well qualified for the job.

He came to Bramalea from Newmarket where he

was recreation director for three years. He served as assistant recreation director there for two years prior to assuming the top post.

Don was born in South Porcupine 46 years ago. With the exception of one year in which he played hockey for the Barrie Colts, he played most of his hockey in the senior ranks at Porcupine before spending six years overseas during the war.

After the war, Mr. Pecore returned to South Porcupine where he was arena manager from 1949 to 1965 when he moved to Newmarket.

Don is married with six children ranging in age from 14 to 22 years.

He has both his refrigeration and his directors papers.

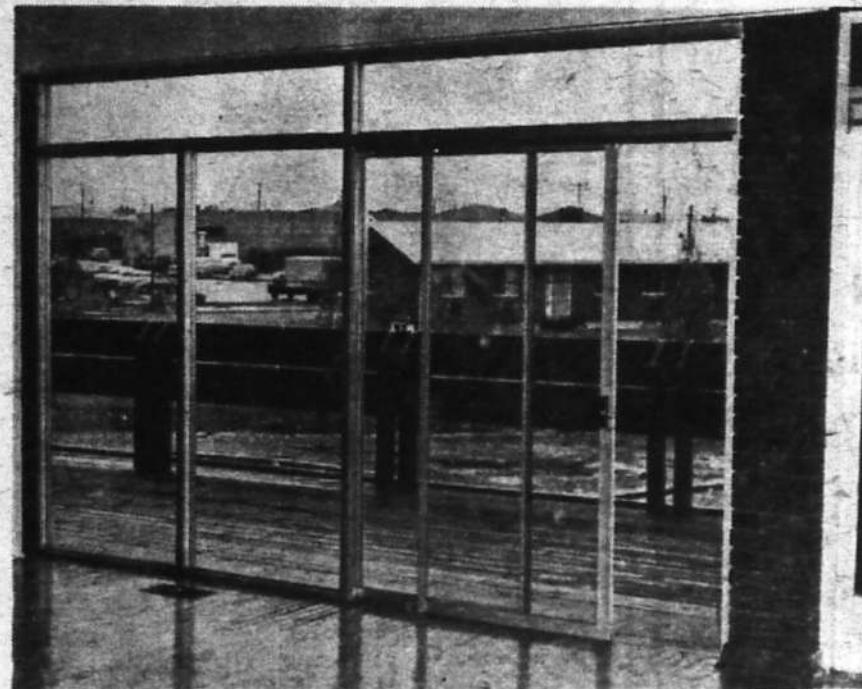

Don Pecore is extremely interested in minor hockey, minor baseball and figure skating. He set up and oper-

ated his own minor hockey team last year and was president of the South Porcupine Figure Skating Club for six years.

Now, as well as his duties as manager of the arena, he is also in charge of the other facilities of Victoria Park. These include a tennis court, softball and hardball diamonds.

Don Pecore is what you would have to call a busy man.

Congratulations to... VICTORIA PARK ARENA

Originals Play Grads In Opener

BRAMALEA — One of the feature attractions of the official opening night program at the Chinguacousy Municipal Arena will be an exhibition game between boys who formerly were the paperweight all-stars of 1965-66 season.

Eight of the originals are left while the other eight have graduated and gone onto greener fields in the bigger leagues.

The paperweights were under the watchful eye of Marvin Hall and Reg Mason for three years.

The ones left for this year are seven year olds and the list includes Bruce Baker in goal, Douglas Barkley, the "pest line" of Peter Hall, Reg Hall and Billy Joe Mason, Tommy McLeod, David Samson, and Bill Kincaid.

The Graduates are made up of Marty Trotter in goal, Jimmy Peterson, Alexander Smith, Mike Hall, Jim Samson, Bob Venator, Danny Sullivan, David Panes and Gary Scott.

The Graduates have not played together since the season closed earlier this year and now in the novice ranks, they are scattered throughout the various teams. However they are coming back together for this one occasion.

ARENA MANAGER, DON PECORE

Brampton Ties Georgetown In Centennial Hockey

By STEVE LONG

BRAMPTON — In Centennial playdowns Sunday, Brampton battled Georgetown to a three-all deadlock.

Marty Fowler gave Georgetown the lead in the first period. Georgetown outshot Brampton 8 to 5 in the period and only a couple of clutch saves by Brampton's Glen Cation kept the score down.

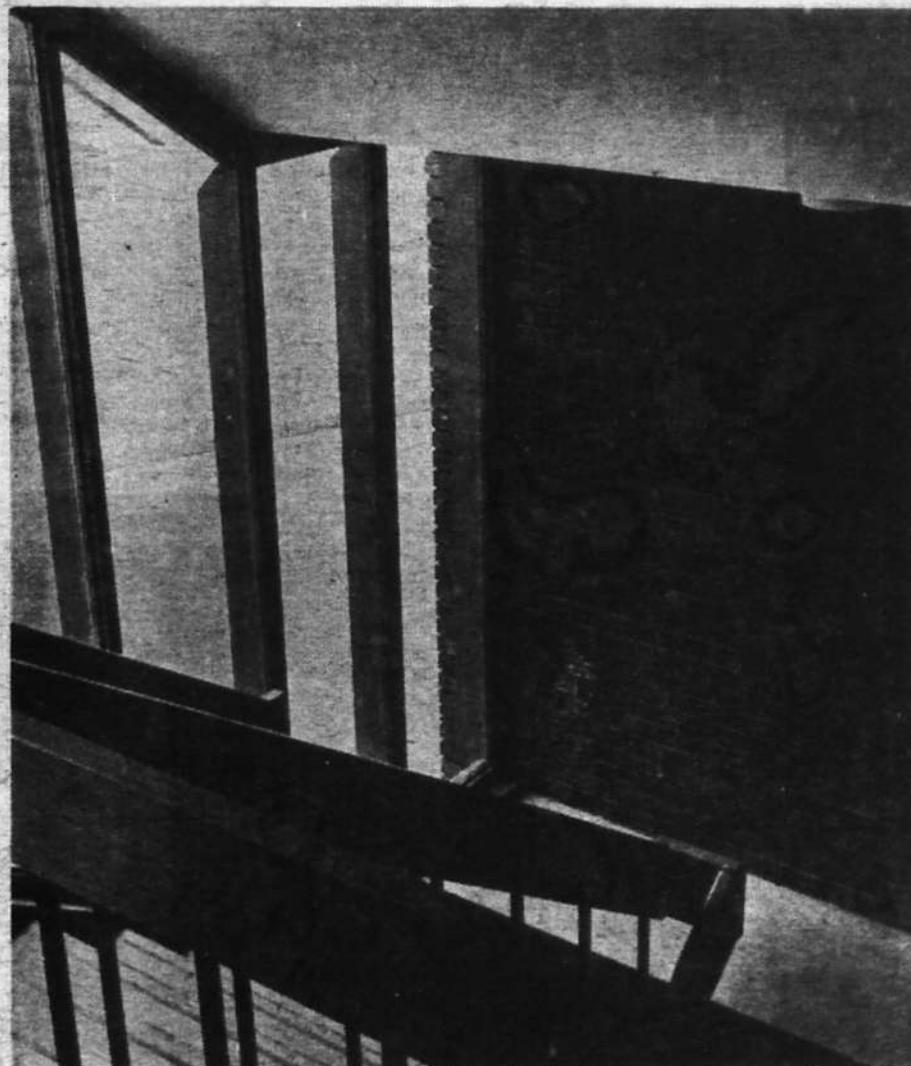

At the 7.30 mark of the second period, Bob Moncton made it 2 to 0 for Georgetown on a pass from Douglas Wiles. Mark Evans cut Georgetown's lead in half with a goal at the 15.15 mark. Charlie Archdekin earned an assist. Georgetown outshot Brampton in the period 9 to 5.

In the third period, hard-

working Vic Wright tied it up for Brampton on a pass from Al Ringler, the goal coming at the 4.40 mark. Gerry Nash put Georgetown into a 3 to 2 lead as he cashed in a rebound off goalie Glen Cation. Vic Wright scored his second goal of the afternoon to gain the tie for Brampton. Ian Montgomery and Al Ringler, assisted on the play.

Brampton outshot Georgetown in the period 16 to 11.

Brampton will visit Galt tonight for the big game of the series. Galt has eleven points from seven games while Brampton's points add up to nine from six games. Georgetown, Guelph and Brantford are now out of contention. Game time at Galt is 7 p.m.

Big, wide, bright stairs lead to the second floor community hall. The stairs are of a composition material and are enclosed on the outside by wire reinforced glass windows running the full height of the building.

Meet Your New Arena

Continued from Page A2

bar provides an excellent vantage point overlooking the ice through armoured glass windows.

The community hall 36' x 80' is located above the facilities section and provides seating for about 400 persons to watch stage activities or 200 persons at a banquet. Two washrooms and a storage room are provided to accommodate the direct needs of the community hall, and in addition an arena manager's office, recreation directors office and committee room are provided on this second floor.

A feature of the community hall is the windows overlooking the ice surface with an unobstructed elevated view over the complete rink. In this way particularly attractive spectator accommodation is available which can be used in numerous ways to serve the requirements of the community.

The arena is provided with ducting for a complete sound system and provision is made for the later installation of "people heaters" over the bleachers.

REFRIGERATION EQUIPMENT

After a review and analysis of various ice-making equipment proposals an automatic brine system was selected as providing a combination of most reasonable costs for both operation and installation.

The system is provided with an evaporative condenser and 50 HP and 30 HP compressors circulating the brine through plastic pipes cast into the concrete rink floor. This floor is of reinforced concrete with a spe-

cial trap-rock topping so that it may be available for many purposes in addition to serving as an ideal base for an ice surface.

LIGHTING, HEATING AND SERVICES

Rink lighting is achieved utilizing mercury vapour lamps which provide excellent illumination with an economic combination of installation and operating costs. A gas fired furnace is provided to serve a forced air heating system in the facilities section and community hall.

Pedestrian access is available directly from the main residential collector street at the shopping centre. Parking is provided for about 100 cars immediately adjacent to one side of

the arena with a paved and lighted parking area.

The watermains, sanitary and storm sewers are directly connected to the municipal system and snow melt and rink drainage is discharged directly to the adjacent watercourse.

Victoria Park, in which the arena is situated, is also being fully developed as part of the township's centennial project. The facilities available include both hardball and softball fields together with four tennis courts and general open space. These facilities and the arena will function as a most attractive and comprehensive park and facility serving the rapidly growing community of Bramalea with a present population of almost 10,000 persons.

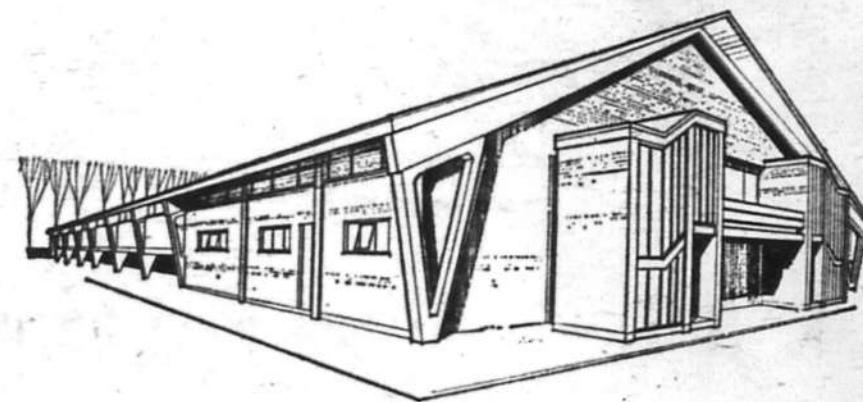

The arena is used for lacrosse in the summer. The games can be observed in comfort through the glass windows in the downstairs lounge.

Congratulations

TO THE
TOWNSHIP OF CHINGUACOUSY

VICTORIA PARK ARENA

May we take this opportunity to wish the best of luck to the new arena in Chinguacousy Township. This new arena is another outstanding example of the rapid progress being made in our township. On this occasion Bramalea Consolidated Developments Limited joins with the residents of Chinguacousy Township in congratulating all those connected with the planning and erection of the new building.

Big Expansion For Minor Hockey

BRAMALEA — From 75 players in 1961 to 700 players in 1966 is the history of the minor hockey organization in Bramalea.

The story is one of tremendous growth in phases of its operation with hundreds of willing helping hands assisting in giving the young of the community the best opportunity to learn to play hockey.

Aided, of course, by the completion of the first of what is hoped will be more municipal arenas, the picture story so far has been one of success.

This year for example it is reported by the minor hockey executive that there are 50 teams availing themselves of this instruction in which over 100 coaches and managers are involved.

The minor hockey program is governed by a 20-man executive which used to meet once a month, now meets twice a month, and members of the executive are often seen around the arena night after night.

This year the program is headed by president Marvin Hall, assisted by vice-president Jim Thompson, treasurer Reg Mason and secretary George Foster.

There are two co-chief co-

ordinators, Mervin Mills and Douglas West. There are also five divisional coordinators. In Paperweight it is Charlie Derkson, Novice, Tim Milloy, Peewee, Bill Kincaid, Bantam, Bob Scott; and Midget-Juvenile, Len Cobby.

Ron Peterson, who also is chairman of the arena board, also doubles, among other things as troubleshooter for the league.

Referee in-chief of the league is Ed Siemonowski who also looks after the league's equipment. Chief coach is Bruce Elliott.

In charge of publicity is Dave Noble and all-star co-ordinators are Rolland Hall and Al Smith.

"There are over 100 others, coaching, managing, timekeeping and performing other duties," said Marvin Hall. "We appreciate what they are doing and they are making their presence known."

"These men," he said, "have met once a month since last spring, lately they have been meeting twice a month and many are around the arena all the time."

But not only are the men of the community wrapped

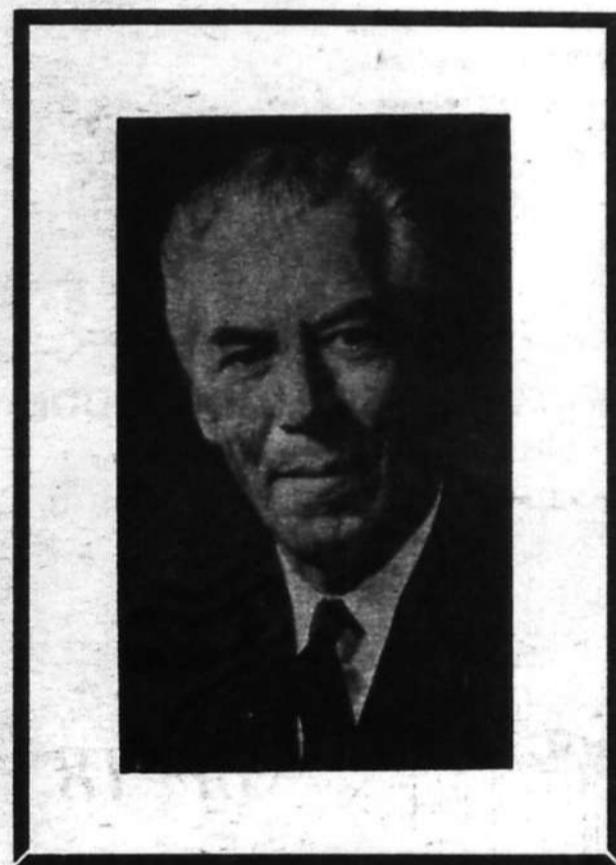

Minor hockey keeps the arena humming seven days a week. Here we see some novice all-star action.

up in minor hockey but many of the wives are also deeply involved. So much so they have formed a ladies

auxiliary which is busily engaged in raising funds for the better operation of the league.

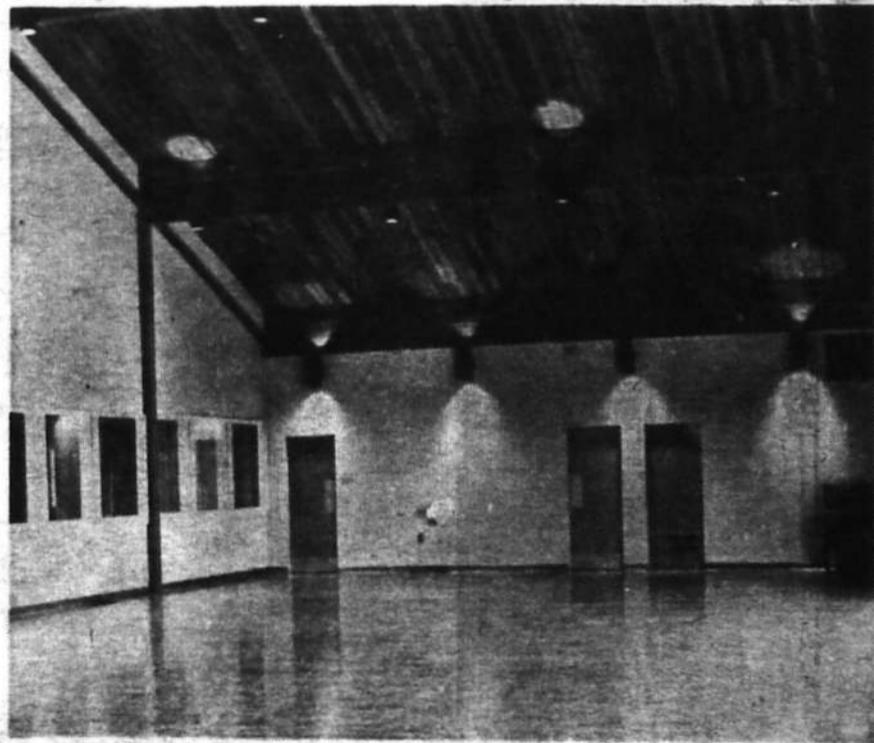

Dianne Hall is president of the ladies auxiliary and she has scores of willing helpers who assist in carry-

ing out the many duties attendant on the smooth operation of the minor hockey league.

SAYER'S PAINT & WALLPAPER

14 MAIN ST. SOUTH
BRAMPTON - 451-4971

HE DESIRES ICE, SIRE, FOR SOMETHING CALLED HOCKEY

May 6, 1965

The original plans had the arena being situated in Victoria Park. The location was then changed to a site on Balmoral dr. But this didn't meet approval and the site was again switched, this time to the corner of Dixie rd. and Highway 7. When this location too was vetoed and the task of locating the arena left to the planning consultants, Andy drew this cartoon.

WELL! WHERE TO THIS TIME?

...WUD I TELL YA... A SEVEN... I CUT THE RIBBON!

Donato Tells The Story Of The Arena

Dec. 17, 1964

Ice conditions at the existing Balmoral Rink were very bad. The rink itself was considered inadequate. When letters reached council deplored the lack of an artificial ice arena in Bramalea, Andy saw it this way.

Nov. 18, 1966

Finally, the big night arrives. After two long years of bickering and decisions the new arena is officially opened. The two years have seen costs rise much beyond original estimates. They have seen completion dates come and go without any sign of completion. They have seen the township threaten to replace the contractor. But finally, they have seen the arena finished. All this is past now on this the arena's biggest night. This is how Andy records opening night.

Oldtimers Hail From Many Extinct NHL Teams

BRAMALEA — Those who are used to the present NHL team line-ups may be

surprised to see the "New York Americans" listed on the Oldtimer's roster for

Friday night's game at the arena.

There was a time, how-

ever, forty-odd years ago, when the league consisted of ten teams. In addition to the present clubs there existed such nearly-forgotten names as the Ottawa Senators, the Montreal Maroons, the Pittsburgh Pirates and the Americans.

Pittsburgh operated for only a few years before dropping out of the league in the early '30's. At that time the Ottawa team, which never had a large following in the capital, transferred to St. Louis. It disappeared in 1935.

The Montreal Maroons fell by the wayside in 1938.

In 1941 the Americans changed their name to the Brooklyn Americans but proved no big city can support two major league teams by expiring a year later.

Detroit has been a league member since the 1920's but under three different names, the Cougars, the Falcons and, since 1933, the Red Wings.

Harry Watson, who lists the Americans as a previous home club, is a veteran of over 800 games in the NHL, plus a further 62 play-off games. After leaving the Americans he played for Toronto and Detroit. He left the league in 1958.

Defenceman Bob Goldham is a native of Georgetown. He has been out of the NHL since 1956. He previously played for Toronto, Detroit and Chicago.

Ivan Irwin, also a defenceman, played 155 games for the Rangers before retiring in 1960.

The Cullen brothers, Brian and Barry, both played for two NHL teams, Leafs and Rangers. Brian is the senior with 236 big league games to his credit. Barry played 219 games.

Bob Beckett played for

NHL Oldtimer Danny Lewicki has two sons coming along hoping to someday fill dad's shoes. They are, left, Danny Jr. and, right, Paul.

only one year in the NHL, for Boston. He left the pro ranks two years ago.

Sid Smith played all his 601 games for Toronto in the early 1950's. He amassed 369 points during his years with the Leafs, including 27 points in play-off games.

Another ex-Leaf is Ron Hurst who left the league in 1960.

Jack Hamilton is also an alumnus of Toronto having played for the Leafs from 1951 to 1953.

A real travelling journeyman is right winger Cal

Gardner who, in his 695-game career, has played with Boston, Toronto, Chicago and New York. A play-maker, Gardner has 238 assists on his record against 154 goals. He has played in 61 play-off games.

Center Bob Hassard played three seasons with Toronto in the early 1950's. He left the league in 1958.

One of the smallest men ever to play in the NHL is Danny Lewicki. Lewicki, who played 461 games for Toronto and New York, weighed in at 145 pounds.

How Many Do You Know In This List?

BRAMALEA — When the NHL Oldtimers take to the ice Friday night at the arena opening, their line-up will include many familiar faces.

Facing the Cheltenham Harvesters will be alumni of all the pro teams with the exception of Montreal Canadiens.

Eleven graduates from Toronto will be among

those whom time and age have not withered.

The team, with sweater numbers and former clubs is as follows:

- 1 Ivan Weinsley N.Y.
- 2 Bob Goldham Tor., Det., Chi.
- 3 Bob Robertson Det., Chi.
- 4 Murray Henderson Bost.
- 5 Ivan Irwin N.Y.
- 6 Pelle Conacher Tor.
- 7 Barry Cullen Tor., N.Y.
- 8 Bob Beckett Bost.
- 9 Brian Cullen Tor., N.Y.
- 10 Sid Smith Tor.
- 11 Ron Hurst Tor.
- 12 Jack Hamilton Tor.
- 13 Cal Gardner Tor., Bost., Chi., N.Y.
- 14 Harry Watson Tor., Det., N.Y.
- 15 Bob Hassard Tor.
- 16 Danny Lewicki Tor., N.Y.

Another father-son combination Sid Smith, a veteran of many NHL contests and now an Oldtimer, practices with son, Brian.

You hear her but never see her at the arena. Sylvia Kruse is really a behind-the-scenes worker as she runs the music amplifier and makes the p.a. announcements. Although the Skater's Waltz is still a prime favorite, she gets calls for slow music from the older patrons and for jive from the teenagers. Seventeen-year-old Sylvia is a Grade XI student at Bramalea Secondary School.

Top Figure Skaters To Appear At Opening

Top junior and senior figure skaters will appear on the program at the arena opening on Friday evening.

Sandy and Heather Moore, nine and 10 years of age, are members of the Weston figure skating club and winners of the novice pairs competition, central Ontario, in 1964 and 1966.

Eleven-year-old Ken Polk of the Lakeshore figure skating club won the 1966 Ontario novice free skating title. He then went on to take third place in the senior men's free skating competition against contestants

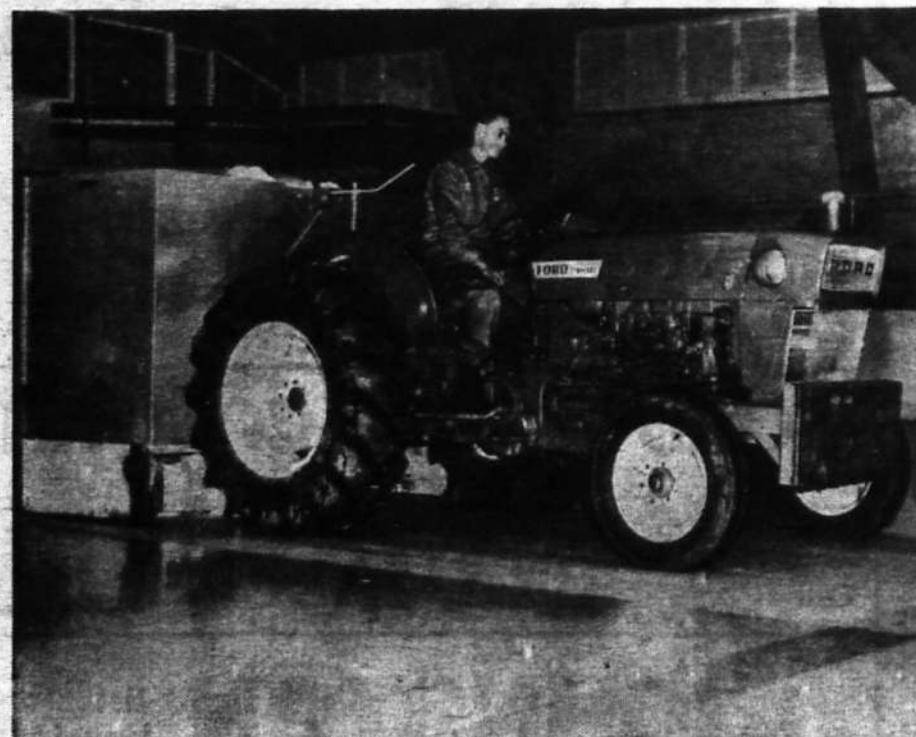

from Canada and the United States.

John Bailey and Judy Henderson are both double gold dance medalists. This is distinguished from pairs skating in that lifts are not permitted. John and Judy can list among their accomplishments the 1965 Junior Canadian Dance Championships, and third place in the senior championships in 1966.

They will enter a series of contests this winter in which the winners will be allowed to compete in the world championship to be held in Europe this winter.

Debbi Wilkes is co-holder of the 1963-1964 pairs championship of Canada, the 1963-1964 pairs championship of North America, the 1964 bronze pair medalist in the world championship and the 1964 silver medalist in the winter olympic games.

Miss Wilkes is a member of the Unionville skating club. She is a second year psychology student at York University and is working towards her Honors B.A.

There'll be no snow shovelled in this arena. A Shomberg ice machine is employed to flood and scrape the ice at the same time. During fair weather, the snow picked up is dumped outside but when the weather turns bad, a heated snowpit is provided inside. Here we see arena employee Brian Armstrong pilot the machine down the ice.
